

Sequential Lesson Planning Guide

Lesson sequencing is the systematic process of organizing several lesson plans, focused on one topic of study, which will be taught consecutively. The practice of purposeful lesson sequencing is to create a continuum of learning which builds upon the previously taught lesson (scaffolding) while maximizing optimal learning outcomes. Clear end objectives and systematic lesson planning allows teachers to anticipate opportunities for differentiation and assessment check points. The teacher can scaffold the new concept, skill or strategy, so that students have access to support as they gain new knowledge and meet the lesson's measurable objective(s). Creating a sequential lesson plan unit will showcase the teacher's ability to anticipate the needs of the students while concurrently meeting the grade level standards.

The Sequential Lesson Plan Unit is broken up into three sections; Planning, Instruction and Reflection. As you complete this heavily weighted project, please be sure to consult the rubric in order to ensure that your unit clearly addresses all indicators to be assessed. You will find each of these templates on the [Educator Preparation Program](#) page under Teaching Forms.

Part 1 Planning

- Summary of the Target Student Population
 - Describe, in narrative (paragraph) form, the target group of students.. State the number and age/grade of the students, provide a description of the whole group and special characteristics of individual students as relevant to the unit of study.
- Subject(s)
- Grade Level
- Standards
- Describe Pre-Assessments
 - Describe, in narrative (paragraph) form, the assessments developed and used to guide instruction and demonstrate growth for the unit of study.
- Timeline
 - Provide a clear timeline highlighting the focus of each plan and assessment within the systematic lesson planning project.
- Summary

Part 2 Lesson Plan (Instruction)

- **Planning**
 - Subject
 - Topic or Unit of Study
 - Grade/Level
 - Material and Media
 - Standards
 - Measurable Objectives
 - Summary
 - Differentiation
 - Remediation
 - Extensions
 - **Assessment**
 - Pre Assessment Data (If applicable)
 - Post-Assessment
 - Assessments/Rubrics
- **Teacher Facilitated Instruction**
 - Anticipatory Set with Purpose
 - Instructional Sequence
 - Independent Activity
 - Closure

***You will submit 3 sequential lesson plans using the template provided.**

Part 3 Reflection

- Assessments
- Student Growth
- Looking Ahead: Future Instructional Planning
